

SKEENA RESOURCES LIMITED

CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2007

AUDITORS' REPORT

To the Shareholders of
Skeena Resources Limited

We have audited the consolidated balance sheets of Skeena Resources Limited as at December 31, 2007 and 2006 and the consolidated statements of operations and comprehensive loss, deficit, accumulated other comprehensive loss and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2007 and 2006 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

SKEENA RESOURCES LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2007

1. NATURE AND CONTINUANCE OF OPERATIONS

Skeena Resources Limited (the “Company”) operates primarily in the mining industry. The Company is in the exploration stage with respect to its mineral property interests and has not, as yet, achieved any commercial production.

All figures are in Canadian dollars unless otherwise specified.

These financial statements are prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. The recoverability of the amounts shown for mineral property interests is dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete exploration and development of the properties, the timing of legislative or regulatory developments relating to environmental protection, and upon future profitable operations or proceeds from the disposition thereof.

	2007	2006
Working capital	\$ 2,144,989	\$ 445,151
Deficit	(9,476,626)	(8,654,104)

2. SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary. Significant inter-company transactions and balances have been eliminated on consolidation.

Use of estimates

The preparation of consolidated financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. Actual results could differ from these estimates. Significant accounts that require estimates relate to the impairment of mineral property interests, estimated useful lives of equipment, valuation allowances for future income tax assets, stock-based compensation and valuation of warrants in private placements.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Marketable securities

Marketable securities are classified as available for sale and are measured at fair market value. Prior to fiscal 2007, they were measured at the lower of cost or market value.

Mineral property interests

All costs related to the acquisition, exploration and development of mineral property interests are capitalized by property. If economically recoverable ore reserves are developed, capitalized costs are reclassified as mining assets and amortized using the unit of production method. When a property is abandoned, all related costs are written off to operations. If, after management review, it is determined that the carrying amount of a mineral property is impaired, that property is written down to its estimated net realizable value. A mineral property is reviewed for impairment whenever events or changes in circumstances indicate that its carrying amount may not be recoverable.

The amounts shown for mineral properties do not necessarily represent present or future values. Their recoverability is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development, and future profitable production or proceeds from the disposition thereof.

Asset retirement obligations

Asset retirement obligations are legal obligations associated with the retirement of tangible long-lived assets that the Company is required to settle. The Company recognizes the fair value of liabilities for asset retirement obligations in the period in which they occur or in the period in which a reasonable estimate of such costs can be made. Liabilities include those liabilities related to environmental protection and rehabilitation due to environmental law or contracts. The asset retirement obligation is recorded as a liability with a corresponding increase to the carrying amount of the related long-lived asset.

Equipment

Equipment is recorded at cost less accumulated amortization. Amortization is recorded on a declining balance basis at the following annual rates:

Computer equipment	30%
Office equipment	20%
Field equipment	20%
Computer software	100%
Vehicle	20%

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Foreign currency translation

The Company's subsidiary is an integrated foreign operation and is translated into Canadian dollars using the temporal method. Monetary items are translated at the exchange rate in effect at the balance sheet date and non-monetary items are translated at historical exchange rates. Income and expense items are translated at rates approximating those in effect at the time of the transactions. Translation gains and losses are reflected in the statement of operations for the year.

Stock-based compensation

The Company uses the fair value method for measuring compensation costs whereby the Company recognizes compensation costs over the vesting period for the granting of all stock options and direct awards of stock. Any consideration paid by the option holders to purchase shares is credited to capital stock.

Loss per share

The Company uses the treasury stock method to compute the dilutive effect of options, warrants and similar instruments. Under this method, the dilutive effect on loss per share is recognized on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds would be used to purchase common shares at the average market price during the year. For the years presented, this calculation proved to be anti-dilutive.

Basic loss per share is calculated using the weighted average number of common shares outstanding during the year.

Income taxes

Income taxes are recorded using the asset and liability method whereby future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using the enacted or substantively enacted tax rates expected to apply when the asset is realized or the liability settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in income in the period that substantive enactment or enactment occurs. To the extent that the Company does not consider it more likely than not that a future tax asset will be recovered, it provides a valuation allowance against the excess.

Flow-through shares

Resource expenditure deductions for income tax purposes related to exploration activities funded by flow-through share arrangements are renounced to investors in accordance with Canadian income tax legislation. The Company records a future income tax liability and a reduction in capital stock for the estimated tax benefits transferred to shareholders. When the Company renounces flow-through expenditures, a portion of the Company's future income tax assets that were not recognized in previous years, due to the recording of a valuation allowance, will be recognized as a recovery of future income taxes in the statement of operations.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Comparative figures

Certain comparative figures have been reclassified to conform with the current year's presentation.

Recent accounting pronouncements

The Canadian Institute of Chartered Accountants ("CICA") has issued new standards which may affect the financial disclosures and results of operations of the Company for interim and annual periods beginning January 1, 2008. The Company will adopt the requirements commencing in the interim period ended March 31, 2008 and is currently considering the impact this will have on the Company's financial statements.

Assessing Going Concern

The Canadian Accounting Standards Board ("AcSB") amended CICA Handbook Section 1400, to include requirements for management to assess and disclose an entity's ability to continue as a going concern. This section applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008.

Financial Instruments

The AcSB issued CICA Handbook Section 3862, *Financial Instruments – Disclosures*, which requires entities to provide disclosures in their financial statements that enable users to evaluate (a) the significance of financial instruments for the entity's financial position and performance; and (b) the nature and extent of risks arising from financial instruments to which the entity is exposed during the period and at the balance sheet date, and how the entity manages those risks. The principles in this section complement the principles for recognizing, measuring and presenting financial assets and financial liabilities in Section 3855, *Financial Instruments – Recognition and Measurement*, Section 3863, *Financial Instruments – Presentation*, and Section 3865, *Hedges*. This section applies to interim and annual financial statements relating to fiscal years beginning on or after October 1, 2007.

The AcSB issued CICA Handbook Section 3863, *Financial Instruments – Presentation*, which is to enhance financial statement users' understanding of the significance of financial instruments to an entity's financial position, performance and cash flows. This section establishes standards for presentation of financial instruments and non-financial derivatives. It deals with the classification of financial instruments, from the perspective of the issuer, between liabilities and equity, the classification of related interest, dividends, losses and gains, and the circumstances in which financial assets and financial liabilities are offset. This section applies to interim and annual financial statements relating to fiscal years beginning on or after October 1, 2007.

Capital Disclosures

The AcSB issued CICA Handbook Section 1535, which establishes standards for disclosing information about an entity's capital and how it is managed. This section applies to interim and annual financial statements relating to fiscal years beginning on or after October 1, 2007.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Recent accounting pronouncements (cont'd...)

International Financial Reporting Standards (“IFRS”)

In 2006, the Canadian Accounting Standards Board (“AcSB”) published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008 the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada’s own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

3. FINANCIAL INSTRUMENTS

Changes in accounting policies

Effective January 1, 2007, the Company adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants (“CICA”) relating to financial instruments. These new standards have been adopted on a prospective basis with no restatement to prior period financial statements.

Financial Instruments - Recognition and Measurement (Section 3855)

This standard sets out criteria for the recognition and measurement of financial instruments for fiscal years beginning on or after January 1, 2007. This standard requires all financial instruments within its scope, including derivatives, to be included on a Company’s balance sheet and measured either at fair value or, in certain circumstances when fair value may not be considered and most relevant, at cost or amortized cost. Changes in fair value are to be recognized in the statements of operations and comprehensive income (loss).

All financial assets and liabilities are recognized when the entity becomes a party to the contract creating the item. As such, any of the Company’s outstanding financial assets and liabilities at the effective date of adoption are recognized and measured in accordance with the new requirements as if these requirements had always been in effect. Any changes to the fair values of assets and liabilities prior to January 1, 2007 are recognized by adjusting opening deficit or opening accumulated other comprehensive income (loss).

All financial instruments are classified into one of the following five categories: held for trading, held-to-maturity, loans and receivables, available-for-sale financial assets, or other financial liabilities. Initial and subsequent measurement and recognition of changes in the value of financial instruments depends on their initial classification.

SKEENA RESOURCES LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2007

3. FINANCIAL INSTRUMENTS (cont'd...)

Changes in accounting policies (cont'd...)

Financial Instruments - Recognition and Measurement (Section 3855) (cont'd...)

In accordance with this new standard, the Company has classified its financial instruments as follows:

- Cash is classified as held-for-trading.
- Marketable securities are classified as available-for-sale.
- Receivables are classified as loans and receivables.
- Accounts payable and accrued liabilities are classified as other liabilities.

There are no adjustments to opening balances as at January 1, 2007 as a result of the application of these new accounting policies.

Comprehensive Income (Section 1530)

Comprehensive income is the change in shareholders' equity during a period from transactions and other events from non-owner sources. This standard requires certain gains and losses that would otherwise be recorded as part of the net earnings to be presented in other "comprehensive income" until it is considered appropriate to recognize into net earnings. This standard requires the presentation of comprehensive income, and its components in a separate financial statement that is displayed with the same prominence as the other financial statements.

Accordingly, the Company now reports a consolidated statement of accumulated other comprehensive loss and includes the account "accumulated other comprehensive loss" in the shareholders' equity section of the consolidated balance sheet.

Fair value

The carrying values of cash, receivables, and accounts payable and accrued liabilities approximate their fair values because of the short-term maturity of these financial instruments. Marketable securities are carried at quoted market value or equivalent.

4. MARKETABLE SECURITIES

	2007	2006
Diadem Resources Ltd.	\$ 4,547	\$ 8,607

At December 31, 2007, marketable securities have an aggregate market value of \$4,547. During fiscal 2006, the Company recorded an allowance for the decline in value of the securities of \$14,780.

5. MINERAL PROPERTY INTERESTS (cont'd...)

Title to mineral properties

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties and political uncertainty. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties is in good standing.

Malpica property, Mexico

In May 2007, the Company entered into an agreement with Reyna Mining & Engineering S.A. de C.V. (“Reyna Mining”) to jointly acquire an option from Grupo México S.A. de C.V. (“Grupo México”) to earn a combined 100% interest in the Malpica property located in the Sinaloa State, Mexico. A newly formed private Mexican corporation, Skeena Mexico S.A de C.V. (“Skeena Mexico”), holds the option as its sole asset. The Company has the option to acquire 90% of the shares of Skeena Mexico, pursuant to which the Company paid US\$25,000, issued 1,000,000 common shares valued at \$400,000 and granted 1,000,000 warrants valued at \$137,172 to acquire 1,000,000 common shares exercisable at \$0.75 per share expiring May 29, 2009. In addition, the Company paid finders fees consisting of 150,000 common shares valued at \$60,000 and 200,000 warrants valued at \$30,813 to acquire 200,000 common shares exercisable at \$0.65 per share. Total consideration to December 31, 2007 of \$652,985 was accounted for as the acquisition of the mineral property of \$906,985 and a future income tax liability of \$254,000.

To complete the acquisition of Skeena Mexico, the Company is required to make additional staged cash payments of US\$725,000 and issue 4,000,000 common shares.

Skeena Mexico paid US\$250,000 to Grupo México, the vendor of the Malpica property, to begin a 12-month due diligence period during which Skeena Mexico must conduct a US\$1,500,000 exploration program, including a minimum 5,000 metres of drilling. Skeena Mexico is required to make additional staged cash payments by the end of year 3, of US\$10,250,000 and incur a minimum of US\$1,500,000 in exploration expenditures during the first year. Reyna Mining, the owner of 10% of Skeena Mexico, is carried during the first US\$7,500,000 expenditures and shall become a pro rata contributing party thereafter. If Reyna Mining elects not to contribute, the Company retains the right to purchase its 10% shareholding in Skeena Mexico for US\$2,000,000. The Company must attempt to place Malpica into commercial production, on a “best efforts” basis, at a rate of 1.5 million tonnes per annum, within 36 months of the date of the Final Purchase Agreement. If commercial production is delayed, then a reduced pre-production royalty may be payable. Grupo México retains a first right of refusal on purchase of concentrates from the property at prevailing market prices and retains a sliding-scale royalty interest on production from the property.

SKEENA RESOURCES LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2007

5. MINERAL PROPERTY INTERESTS (cont'd...)

Malpica property, Mexico (cont'd...)

Skeena Mexico's Agreements with Grupo México and the Company's Agreement with Reyna Mining are as follows:

	SKEENA MEXICO CASH PAYMENTS TO GRUPO MÉXICO US\$	SKEENA MEXICO EXPENDITURES (EXPLORATION COMMITMENTS) US\$	SKEENA CASH PAYMENTS TO REYNA MINING US\$	SKEENA SHARE ISSUANCES TO REYNA
On signing	\$ 250,000 paid	-	\$ 25,000 paid	1,000,000 issued*
1 year anniversary	\$ 1,000,000	\$ 1,500,000	\$ 500,000	2,000,000
1.5 year anniversary	\$ 2,000,000	-	-	-

3 year anniversary	\$ 3,500,000	-	-	-
	\$ 10,500,000	\$ 1,500,000	\$ 750,000	5,000,000

* includes 1 million 2-year warrants exercisable at \$0.75.

Ronoke and Blackhorn Claims, British Columbia

The Company entered into an option agreement to earn a 100% interest in certain claims in the Clinton and Nelson mining districts of British Columbia pursuant to which the Company paid \$5,000 and issued 150,000 common shares at a value of \$27,000. To earn its interest, the Company was required to make additional staged payments of \$25,000 and 400,000 common shares.

The claims were subject to a 2% net smelter returns ("NSR") royalty, to which the Company retained the right to purchase for a payment of \$500,000.

Pursuant to an agreement with the vendor to remove the NSR and acquire 100% of the interest in both the Blackhorn and Ronoke claims, the Company paid \$10,000 and issued 200,000 common shares at a value of \$82,000 in lieu of the staged payments of \$25,000 and 400,000 common shares and the work commitments.

During fiscal 2005, the Company granted an option to acquire the Ronoke property to a private corporation attempting to obtain a public stock exchange listing. Option payments of \$5,500 were received in fiscal 2005 and \$15,000 during fiscal 2007. Subsequent to December 31, 2007, the optionor exercised the option and issued the Company 82,500 shares of common stock.

The Company retains 100% ownership of Blackhorn.

SKEENA RESOURCES LIMITEDNOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2007**5. MINERAL PROPERTY INTERESTS (cont'd...)****El Corazon Property, Ecuador**

The Company entered into an agreement with Alpha Oil Inc. (“Alpha”) to acquire Alpha’s option with Compañía Agroindustrial El Corazon S.A. (“Agroindustrial”) to earn a 50% interest in the El Corazon property located in the Province of Imbabura, Ecuador. A private Ecuador company (ALPHEC Alpha Ecuador S.A.), holding the option as its sole asset, was acquired by the Company from Alpha in consideration for the reimbursement of certain expenses and the issuance of 5,000,000 common shares of the Company valued at \$1,750,000. To earn its 50% interest, the Company is required to pay \$1,500,000 in cash or common shares, at the election of the Company, on or before December 11, 2008. The Company paid Agroindustrial US\$465,000 in option payments and is required to make additional staged cash payments before December 11, 2008, of US\$4,000,000 and incur a minimum of US\$5,500,000 in exploration expenditures.

On April 17, 2008, the Constitutional Assembly of Ecuador passed a new Mining Mandate. The full impact of this legislation, which includes an immediate suspension of exploration and development work, is not yet fully understood. In light of the unilaterally imposed work suspension, the Company has invoked force majeure with respect to its Option Agreement with AgroIndustrial.

The Company’s Agreements with AgroIndustrial and Alpha Oil are as follows:

	CASH PAYMENTS TO AGROINDUSTRIAL US\$	CASH PAYMENTS TO ALPHA OIL INC. CAD\$	EXPENDITURES (EXPLORATION COMMITMENTS) US\$	SHARE ISSUANCES TO ALPHA OIL

8. CAPITAL STOCK AND CONTRIBUTED SURPLUS (cont'd...)

Private placements

During fiscal 2007:

- a) On May 23, 2007, the Company issued 557,222 units at \$0.45 per unit for proceeds of \$250,750. Each unit consisted of one flow through common share and one half non-flow through share purchase warrant. Each full warrant entitles the holder to acquire one additional common share at \$0.75 for a period of 12 months. An estimated value of \$22,289 was allocated to the warrants. The Company paid finders' fees and other issuance costs of \$10,778.
- b) On June 29, 2007, the Company issued 7,582,000 units at \$0.40 per unit for proceeds of \$3,032,800. Each unit consisted of one common share and one half share of a share purchase warrant. Each full warrant entitles the holder to acquire one additional common share at \$0.75 for a period of 24 months. An estimated value of \$454,920 was allocated to the warrants. The Company paid finders' fees and other issuance costs of \$147,110 and issued 277,865 agents' warrants valued at \$3,051 exercisable at \$0.75 for a period of one year.

During fiscal 2006:

- a) On June 16 and July 7, 2006, the Company issued 5,048,000 units at \$0.25 per unit for proceeds of \$1,262,000. Each unit consisted of one common share and one half share of a share purchase warrant. Each full warrant entitled the holder to acquire one additional common share at \$0.40 for a period of 18 months. In the event the closing price of the Company's common shares is at least \$0.60 per share for a period of twenty consecutive trading days, the Company may terminate any unexercised warrants on twenty-five days notice. The Company paid finders' fees and other issuance costs of \$65,513 and issued 236,810 agents' warrants valued at \$5,322 exercisable at \$0.50 for a period of one year.

Stock options and warrants

The Company has a stock option plan under which it is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company. Under the plan, the exercise price of each option equals the market price of the Company's stock, less applicable discount, as calculated on the date of grant. The options can be granted for a maximum term of 5 years and vest at the discretion of the Board of Directors.

8. CAPITAL STOCK AND CONTRIBUTED SURPLUS (cont'd...)

Stock options and warrants (cont'd...)

⁽¹⁾ In the event the closing price of the Company's common shares is at or above \$1.00 per share for a period of twenty consecutive trading days, the Company may elect to reduce the remaining exercise period, upon notice to the holders, to twenty-five days.

Stock-based compensation

During fiscal 2007 the Company granted 2,350,000 (2006 - 1,325,000) options to consultants, officers and directors with a weighted average fair value of \$0.23 (2006 - \$0.34) per option. In addition, 1,200,000 compensatory warrants were issued for the acquisition of the Malpica property resulting in stock-based compensation of \$167,985 with a weighted average fair value of \$0.14 per warrant. The fair value of compensatory options and warrants granted is estimated using the Black-Scholes option pricing model and recorded over the vesting period. The stock compensation is recognized in the statement of operations and capitalized as follows:

	2007	2006
Stock-based compensation cost recorded in the year:		
Capitalized – exploration (Note 5)	\$ 167,985	\$ 41,775
Expensed – administration	<u>364,273</u>	<u>410,006</u>
	<u>\$ 532,258</u>	<u>\$ 451,781</u>

The following weighted average assumptions were used for the valuation of stock options and compensatory share purchase warrants:

	2007	2006
Risk-free interest rate	4.31%	3.96%
Expected life	3.9 years	4.3 years
Annualized volatility	96%	88%
Dividend rate	0.00%	0.00%

SKEENA RESOURCES LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2007

9. INCOME TAXES

A reconciliation of income taxes (recovery) at statutory rates with the reported taxes (recovery) is as follows:

	2007	2006
Loss before income taxes	\$ (882,522)	\$ (637,386)
Expected income tax (recovery)	\$ (280,645)	\$ (230,224)
Non-deductible items	(10,724)	8,034
Stock-based compensation not deductible for income tax purposes	124,290	148,094
Unrecognized benefit of non-capital losses	<u>167,079</u>	<u>74,096</u>
Income tax recovery	\$ -	\$ -

Amounts of future tax assets and liabilities are as follows:

	2007	2006
Future income tax assets:		
Non-capital loss carryforwards	\$ 314,411	\$ 246,079
Equipment	-	3,932
Share issuance costs	54,437	34,167
Exploration and development expenditures	<u>402,083</u>	<u>749,127</u>
	770,931	1,033,305
Valuation allowance	<u>(1,024,931)</u>	<u>(1,033,305)</u>
Net future income tax assets	\$ (254,000)	\$ -

The Company has approximately \$1,164,500 in non-capital losses, which may be carried forward and applied against taxable income in future years. These losses, if not utilized, expire through 2027. Subject to certain restrictions, the Company also has resource expenditures available of approximately \$2,620,000 to reduce taxable income in Canada in future years.

The benefits of these losses and resource deductions have not been recorded in these financial statements and have been offset by a valuation allowance.

10. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

Significant non-cash transactions for fiscal 2007 include the Company:

- a) issuing 1,150,000 common shares and warrants to acquire 1,200,000 common shares valued at \$627,985 pursuant to the acquisition of a mineral property and related future income tax liability.

SKEENA RESOURCES LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2007

10. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS (cont'd...)

- b) granting agents' warrants valued at \$3,051 as finders' fees on a private placement.
- c) incurring mineral property expenditures in accounts payable of \$23,103.

Significant non-cash transactions for fiscal 2006 include the Company:

- a) issuing 2,500,000 shares at a value of \$600,000 pursuant to the acquiring of a mineral property interest as per commitment made in fiscal 2004.
- b) incurring mineral property expenditures in accounts payable of \$14,042.
- c) granting options valued at \$41,775 in payment of mineral property exploration costs.
- d) granting agents' warrants valued at \$5,322 as finders' fees on the private placement.

11. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash, receivables, marketable securities, and accounts payable and accrued liabilities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility of these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. The fair value of these financial instruments approximates their carrying value, unless otherwise noted.

12. SEGMENTED INFORMATION

The Company's one reportable operating segment is the acquisition and exploration of mineral properties. Geographic information is as follows:

	2007	2006
Mineral property interests and equipment:		
Canada	\$ 205,791	\$ 155,905
Mexico	1,748,215	-
Ecuador	<u>5,684,186</u>	<u>5,441,787</u>
	<u>\$ 7,638,192</u>	<u>\$ 5,597,692</u>

13. COMMITMENTS

- a) The Company entered into a consulting agreement with a director of the Company. The Company agreed to pay the director \$9,000 per month. The agreement can be terminated at any time by the Company by paying one years compensation.

SKEENA RESOURCES LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2007

13. COMMITMENTS (cont'd...)

- b) The Company has also entered into an operating lease agreement for office premises in conjunction with another company. The Company and the co-lessee are jointly responsible for 100% of the obligations under the lease and share the obligations equally. The Company's 50% portion of the annual lease commitment under this lease is as follows:

2008	\$ 10,708
2009	10,933
2010	<u>7,288</u>
	<u>\$ 28,929</u>

14. SUBSEQUENT EVENTS

The Company has negotiated an option agreement with the Santoy Resources Ltd (60%) – Almaden Minerals Ltd (40%) Joint Venture to earn up to 60% interest in the Tropico Property, in the copper-platinum-palladium-gold project in Sinaloa State, Mexico and technical database by incurring a work commitment of \$3 million over 5 years (\$100,000 in year one), issuing 1,250,000 shares over 5 years (250,000 issued). A 2% NSR interest is reserved for the joint venture, with half of that interest purchasable for fair market value at the time of presentation of a feasibility study.

The Company has also entered into an option to purchase 100% interest in the San Pablo concession contiguous with the Tropico Property, from Minera Cascabel SA de CV for cash payments totaling \$500,000 over 4 years (\$85,000 paid), a work commitment of two times the minimum required under Mexican mining law during the period of the agreement, and the issuance of 500,000 shares over 4 years (100,000 issued) The concession is subject to a 2% NSR interest.

The Company also acquired two other concessions in the Tropico Property area by direct application to the government.
